QUALITY FOR APTEAN BY UNIPOINT

ENCOMPIX™ ERP

SCOPE

The Encompix Quality and Continual Improvement suite has been designed to help your company automate its journey toward excellence.

COMPLIANCE

The suite, Quality for Aptean from UniPoint, ensures you can maintain and measure the cost and frequency of quality events. The solution encompasses the principles of Lean Manufacturing and bridges a multitude of quality standards, such as ISO 9001, ISO 13485, ISO/TS 16949, AS9100 and FDA 21 CFR Part 11 & Part 820 Compliance.

SIMPLICITY

Users across North America confirm that our quality software is easy-to-use. This translates into a fast learning curve and reduced on-going training costs. Our interface promotes engaged users. See the results from this user friendly solution almost immediately.

INTEGRATION

The Suite has the unique ability to integrate data from the Cimnet Systems system. Imagine the opportunity to eliminate redundant data entry — and leverage the data from your existing systems.

TECHNOLOGY

The Quality Suite was developed using Visual Studio .NET. The reports are written in Crystal Reports, allowing users to easily modify and create new Quality reports. Plus we offer the option of either an Access or MSSQL database.

VISIBILITY & TRACKING

You can send electronic NC/CPA documents and To-Do notification using e-mail. Recipients can then add their input and forward the quality record to its next stage. Each user can be setup with different access rights per module: No Access, Read Only, Edit or Full Rights.

STATISTICAL ANALYSIS

While saving time compiling reports and maintaining spreadsheets, you can streamline the preparation for your Quality audits with over 80 Continual Improvement Management Reports.

CONTINUAL IMPROVEMENT

With the Quality Suite you can evolve to a “paperless quality system” where all documents can be shared, viewed or e-mailed. Everyone with security access can view relevant documents from their own workstation to stay informed of the status of each quality record.

RETURN ON INVESTMENT

Research shows that the costs of poor quality can range from 15%-40% of business costs (e.g., rework, returns or complaints, late deliveries, reduced service levels, lost revenue). Company CFO's boast about getting quick payback on their Quality Suite investment – many within 3-6 months of implementing.

CONTINUAL IMPROVEMENT QUIZ

- Do you want to understand the total administrative cost of quality in your organization?
- Are you always scrambling before an audit to get your data organized?
- Does your Quality system allow for the assignment and tracking of user tasks, with To-Do Lists?
- Do you want to evolve your company from a reactive to a proactive preventative maintenance model?
- Do you continually fail to meet your external Auditor's requirements due to poor Document Control?
- Does your company have a dynamic repository for Education & Training records?
- Could you benefit from a solution that creates flexible surveys and analyzes customer, vendor, and employee responses?
- Is your hazardous material documentation disorganized and out of date?
- Are you interested in changing your Quality Department from a cost center, to a measurable cost-savings center?
