TradeBeam GTM introduces Immediate Implementation Capabilities available now for your critical Export Management requirements, including:

- Restricted Party Screening
- Global Product Master
- Classification (Commodity Classification for global trade transactions)
- Compliance Checklist

Immediate Implementation Capabilities benefit customers by making the installation available promptly after a contract is in effect, allowing companies to start managing their global trade and regulatory requirements right away.

- Installation available promptly after a contract is in effect

With these capabilities, other functionality is also now available:

- Increased capability for “Know your Customer” initiatives
- Inter-departmental visibility for internal governance of order management processes
- Client-control for selected pre-defined workflows
- Visual Dashboard enables Exception Management

“The Immediate Implementation Capabilities available for TradeBeam’s Classification and Restricted Party Screening solutions helps drive significant value to our customers” said Chris Wolfe, Supply Chain Solutions, Aptean, “Instant access to our SaaS applications allows companies to start managing their global trade and regulatory requirements right away. This is especially important in today’s regulatory environment where the cost of non-compliance is extremely high.”

More than 9,000 customers around the world rely on us to give them a competitive edge. By providing innovative, industry-driven enterprise application software, Aptean helps businesses to satisfy their customers, operate most efficiently, and stay at the forefront of their industry.
