Shop for the best shipping rate right from Order Entry or Pick Demand Confirmation

Direct-to-Consumer (DTC) shipping rules are becoming increasingly complicated and, especially at high volumes, you can't depend on individuals to remember and apply the rules correctly or efficiently. Depending on the retailer, weight and other factors, a package can ship via different carriers and/or services. In some cases, the freight collection terms can even change based on the carrier or service being used. Shipment Manager has flexible options to set rules and automate DTC processes, enabling you to manage these complex scenarios.

Benefits

- Manage complex DTC shipping requirements to meet retailer demands while you minimize costs and errors
- Generate shipping labels automatically and populate tracking numbers in the ERP system, alleviating manual, error-prone re-keying of data
- No need to leave the system to generate a tracking label via a third-party solution, so your shipping process becomes easier while orders get out the door faster

Key Features

- **ProShip Integration** – Instantly view and compare real-time shipping rates and transit times, for both small-package and LTL (less than load) carriers, directly within Apprise.
- **Carrier Integration** – Get real-time quotes and delivery timeframes from major carriers including FedEx, UPS, USPS, DHL, and others to offer domestic and international shipping options quickly and easily – even handle FedEx SurePost and UPS SmartPost shipments.
- **Pre-define Business Rules** – Set and manage business rules so that the system automatically selects the best cost and shipper, based on your specific settings and your customers' DTC requirements.
- **Flexible Options** – Manage print labels on packing lists, as well as return labels, ship packages prepaid using a retailer's shipping account, control the freight charges you pass along to customers, and retain discounted shipping rates that you have negotiated with shippers.

Shipment Manager for Aptean Apprise ERP helps streamline and automate the shipping process while simplifying rate-shopping – making your shipping processes as efficient as possible. To learn more or to schedule a demo, email us at info@aptean.com.
