

# What's New With Advanced Reporting 8.0

## Discrete Manufacturing Solutions

Advanced Reporting is a powerful, easy-to-use tool that streamlines financial and operational reporting to give companies a competitive edge through increased productivity and visibility. More functional than a simple GL report writer, Advanced Reporting is a comprehensive solution for organizations that need quick and easy access to financial and operational data necessary for making critical business decisions.

The release of Advanced Reporting 8.0 moves reporting capabilities into the browser for maximum accessibility and usability. Here are the major highlights.

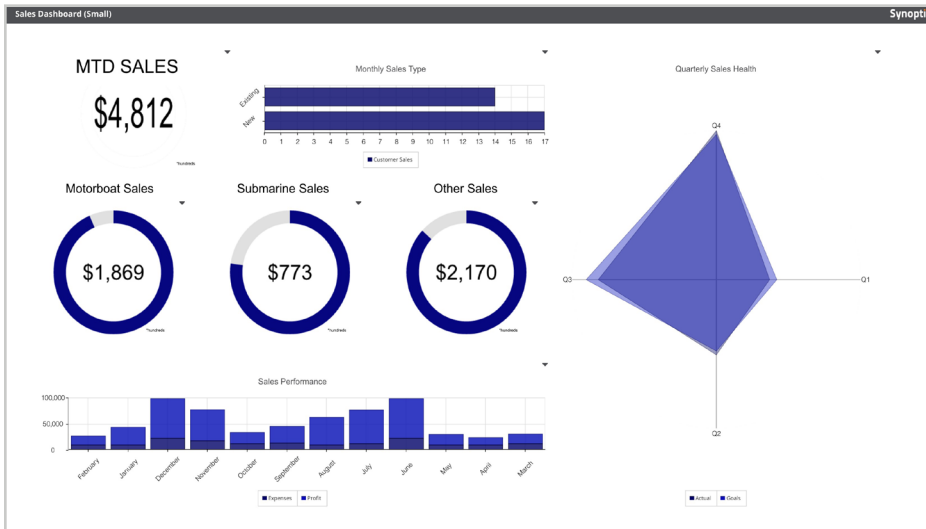

### Latest Enhancements

- **Schedule Server:** We have taken report automation to the browser. Our new and enhanced scheduling features are powered by a Tomcat server. Users can schedule reports, control user distribution, and email directly in a browser without installing an application.
- **Report Portal:** This robust portal allows report consumers to view reports in any standard browser and run them on demand. Take advantage of enhanced drill downs (sort within drill downs, export drill down data, click to next level of information), on-demand reports (run reports for different periods), access to pre-run reports, and access control for user profiles.
- **Dashboards:** Browser dashboards allow for unlimited viewers without applications. Create dashboards for the CEO, department heads, or yourself.
- **Graphing:** Graphing has been enhanced with a new modern look and ability to use existing reports as graphs.
- **Unlimited Users:** Focus on gathering and sharing the right information, without restrictions.

## What is Included?

Take a look at all the new features you'll receive when you upgrade from Version 7.0+ to Version 8.0.

	COMPONENT	VERSION 7.0+	VERSION 8.0

## Dashboard

The newest dashboard updates make data easier to view and drill into than ever before, enhancing your experience.

## Learn More

To learn more, contact your Account Manager or email us at [info@aptean.com](mailto:info@aptean.com).

Aptean provides very specific industries with very specific ERP, supply chain management, and customer experience solutions. In today's fast-paced, highly competitive economy, organizations don't have time to waste forcing homegrown software, spreadsheets, and one-size-fits-all solutions to do things they were never designed to do. Aptean is on a mission to end those workarounds – with industry-specific solutions instead of generic software, expert support instead of making you go it alone, and a steady influx of new ideas instead of the status quo.
