Make Forms Generation Easy

eFORMz powered by Minisoft is a powerful electronic forms generation solution for formatting, personalizing and delivering ERP application output. eFORMz converts standard print output into attractive, functional documents that can be distributed via print, fax, email and the web.

There is no need to learn a proprietary design tool or programming language when creating a form. With eFORMz, you have the power to design forms with the publishing tools you're familiar with. eFORMz integrates seamlessly with MS Word, MS Publisher, Adobe or OpenOffice. Use eFORMz to design packing lists, shipping labels, invoices, purchase orders, bills of lading, gift certificates, checks, barcodes and much more.

Utilize eFORMz to go paperless and completely eliminate the cost of printing and postage by emailing forms in full color HTML or PDF formats.

eFORMz supports printing to any PCL, XML, ZPL or AFPDS compatible printer. The eFORMz Print Manager automates the print process allowing users to control when, where and how forms are printed. The Print Manager is seamlessly integrated with Windows, Unix, Linux or iSeries spooling environments, allowing direct access to print queue properties and document handling options.

Since 1983, Minisoft has been delivering forms automation and document management tools to improve organizational performance and operational efficiencies.

- **Written in Java** - eFORMz runs on Windows, Linux, HP/UX, iSeries/AS400, AIX, Open VMS, MPE and Solaris
- **Forms Library** - a large selection of industry-specific forms is available to shorten implementation time
- **Form Creation Made Easy** - Use MS Word, MS Publisher, Adobe and OpenOffice to design forms

About Aptean GoMembers AMS

Aptean GoMembers AMS association management system is a complete software, services, and support solution for associations and nonprofit organizations of all sizes that are looking to improve member services by streamlining the back office and enhancing front office processes all with one tool.

Aptean provides very specific industries with very specific ERP, supply chain management, and customer experience solutions. In today's fast-paced, highly competitive economy, organizations don't have time to waste forcing homegrown software, spreadsheets, and one-size-fits-all solutions to do things they were never designed to do. Aptean is on a mission to end those workarounds – with industry-specific solutions instead of generic software, expert support instead of making you go it alone, and a steady influx of new ideas instead of the status quo.
